## 🪪 Profile

- A dynamic professional driven by a passion for technology and innovation. Holding a Bachelor's degree in Artificial Intelligence and Machine Learning, I bring a unique blend of technical prowess and creative problem-solving to the table.
- Proficient in programming languages such as Python, adept in data analysis, and experienced in project management, I thrive in turning challenges into opportunities.
- My track record includes successfully implementing a sentiment analysis tool using natural language processing, showcasing my ability to deliver impactful results. As a dedicated team player, I am eager to contribute my skills and drive innovation in a collaborative environment. Let's explore how my expertise can add value to your team.

## 🎓 Education

**Bachelors in Artificial Intelligence And Machine Learning**                 2023 - present
*Symbiosis Institute of Technology*                                                Pune, India
- Pursuing Bachelors in Artificial Intelligence and Machine Learning at Symbiosis Institute of Technology. As of now (On 2nd July , 2024) , I have secured 8.2 GPA in First semester and 8.77 GPA in Second Semester securing 3rd Place in our University.
- This comprehensive program equipped me with a solid foundation in computer science and engineering principles, emphasizing cutting-edge technologies and their applications.
- The curriculum encompassed a range of subjects, including algorithms, data structures, machine learning, and artificial intelligence, providing me with a well-rounded understanding of the field. Engaging in hands-on projects and coursework during my B.Tech ↗ journey enhanced my practical skills and problem-solving abilities, preparing me for the dynamic and evolving landscape of technology.

**12th**                                                                       2021 - 2023
*DDMS AMS P Obul Reddy Public School*                                          Hyderabad

## 💼 Professional Experience

**DevTown**                                                08/2024 - present
*Campus Ambassdor*

**Vault of Codes**                                                  07/2024
*Python Programming Intern*

**Prodigy Infotech**
*Machine Learning Intern*
- Developed an automated machine learning pipeline that enabled faster
  model training and deployment
- Developed a clustering system that accurately grouped customers into
  distinct segments
